Welding & Cutting (Gases) 1910.252											As needed	Annual (for Welders)

(Sexual Harassment is not required by iOSHA but required for all employees by the state of Illinois)

Rev. 03/11/2024

Persons that are not exposed to individual areas of hazard are not generally required by iOSHA to do regular training on those topics.

This may not be a complete list for your organization depending on the operations that your employees are exposed to.

Schools/Colleges - Have a broad range of what employees are exposed to. Custodians would be exposed to many areas for example.

*"Annual" training may be required for individuals exposed to those work areas but not for all employees depending on activities

*New employees should complete safety training for all areas shown that they are exposed to.

Cyber Security Training as of 5-30-23 - 20 ILCS 1375 requires Phishing, Spyware prevention, ID Theft and breach awareness.

 =OSHA Required
 =Specialized & Required
 =Required if exposed to
